Acceptance letter: PurpleFinder DSAS - Ship Security Alert System

Dear Sir,

SOLAS chapter XI-2 regulation 6 requires ships to be provided with Ship Security Alert Systems (SSAS). However, there are no provisions in this chapter for Administrations to type approve such systems.

The Liberian Administration has reviewed the features of Pole Star Space Applications Ltd.'s PurpleFinder DSAS - Ship Security Alert System and participated in operational test of installed equipment. We have determined that the system is capable of meeting the requirements of SOLAS chapter XI-2 regulation 6 and the SSAS performance standards of IMO Resolution MSC.136(76) and IMO Resolution MSC.147(77).

We therefore find that the PurpleFinder DSAS - Ship Security Alert System is acceptable for use on ships of the Liberian register.

Sincerely,

David Pascoe
for
DEPUTY COMMISSIONER
OF MARITIME AFFAIRS
REPUBLIC OF LIBERIA
