**Approval question;
PurpleFinder DSAS Ship Security Alert System**

Dear Sir,

The Swedish Maritime Safety Inspectorate does not make type approvals, but based on the fact that the PurpleFinder DSAS Ship Security Alert System is type approved by several European classification societies, The Swedish Maritime Safety Inspectorate approves that the system can be installed on ships flying the Swedish flag.

When Ship Security Alert Systems/SSAS are included in the annex to the EC-directive for Marine Equipment 96/98/EC, such systems shall comply with the regulations regarding type approval etc. in that directive.

This errand has been decided by the Head of ships Technical Division, Mikael Huss. It has been presented by Staffan Eliasson.

Mikael Huss
Head of Ship Technical Division

Staffan Eliasson
Captain MM
