

SmartOne C

Choose Globalstar's SmartOne C when you need reliable, simple, and cost-effective satellite tracking for unpowered marine assets, barges, "dead" tows and unattended installations

The smallest, lightest device in our offering, the SmartOne C is ideal when space and time on board is limited.

The SmartOne C offers reliable position reporting, near-global coverage via the Globalstar satellite network and an integrated GPS, all housed within a tough polycarbonate enclosure small enough to fit in your hand.

The SmartOne C can be either battery powered or line-powered.

Key Benefits

- **Rugged & reliable, and engineered for extreme conditions**
- **Requires no harnesses, external power, nor external antennae**
- **Asset-ready design**
- **Offers 3 different reporting rate options**
- **Compatible with Pole Star Platform**

SmartOne C TECHNICAL SPECIFICATIONS

Physical

Overall dimensions	6.86 x 8.26 x 2.54 cm (with brackets)
Weight	102g (with 4 batteries and mounting hardware)

Environmental

Operating temperature	-30 to +60°C Note: The unit shall remain operational over the -40 to 85°C range, though may experience battery life and RF signal degradation.
-----------------------	---

Position reporting

Automatic position reporting	Yes (choose 1/day, 6/day or 24/day)
On-demand position reporting	No

GPS

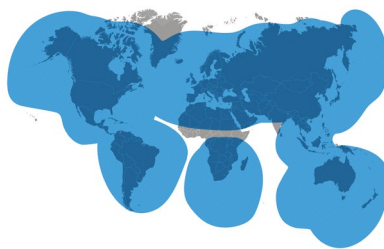

Type	Integrated
------	------------

Power

Line power	5V DC or 8-22V DC with regulator cable (not supplied)
Battery type	4 x AAA 1.5V lithium
Battery life	1.5+ years

Satellite

Satellite service	Globalstar Simplex Data Network
Coverage	

Certification / Compliance

Certifications	ANATEL Certification for Brazil, FCC CFR Parts 15 and 25, Industry Canada, CE Red
Standards	SAE J1455 MIL STD 810, NEMA 4X / IP68, RoHS Compliant
