MEDIA OVERVIEW

MARITIME INTELLIGENCE & COMPLIANCE TECHNOLOGY

Pole Star Global is a leading maritime intelligence and compliance technology provider, delivering data solutions that bring transparency to global shipping.

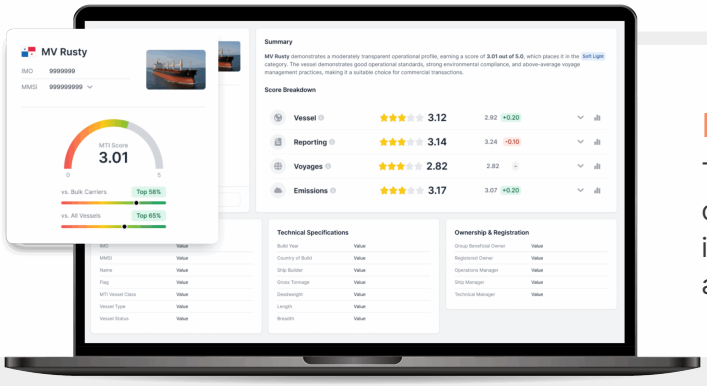

With over two decades of experience, we combine AI technology, comprehensive vessel tracking, and maritime expertise to help organizations, governments, and media understand vessel behavior, trade patterns, and maritime risk.

FOR MEDIA
DATA & INSIGHTS

01 Real-time & historical vessel movement data
02 Shadow fleet identification & monitoring
03 Sanctions & dark activity detection (AIS manipulation)
04 Beneficial ownership & flag-state analysis
05 Environmental & oil-spill risk assessment
06 Commodity flow & trade route intelligence

YOUR STORY
HOW WE SUPPORT

01 Expert commentary on vessel movements & trade
02 Custom vessel tracking for investigations
03 Ownership network mapping & visualization
04 Fact-checking vessel identity & positions
05 Public API access for technical journalists
06 Embargo coordination for in-depth stories

MARITIME TRANSPARENCY INDEX

The first comprehensive scoring system evaluating how openly vessels, owners, and flag states operate, helping identify deceptive practices and promote accountability across global shipping. **Find out more** →
